**About *Pickings*:** *Pickings* is a neo-noir crime film that tells the story of Jo Lee Haywood – a single mother and neighborhood bar owner who spent years trying to escape her violent past. But when a local mobster and his gang of thugs come knocking on her door, Jo is forced to embrace her inner demons and confront her deadly history in order to protect her family and property. Still waters run deep in this stylistic, neo-noir crime saga.
